WHO IT'S FOR

All skin types. Anyone looking for a customizable golden glow.

APPLY SIMPLY

For best application, start with freshly exfoliated skin. To customize the intensity of your tan, add a few drops to your favorite moisturizer. We recommend 2-3 drops for the face and half a dropper for the body (adding less or more will customize the depth of your tan). Combine the mixture in your hands using circular motions. Massage into the desired areas being sure to rub in evenly. Can be used daily on face and body to maintain a glow. Wash hands after application.

WHY IT WORKS

- Dihydroxyacetone (DHA) provides a beautifully golden tan
- Sodium Hyaluronate helps skin stay moisturized
- Clear microemulsion technology increases efficacy

PAIR IT WITH

Exfoliate the body with POLISH before VACAY application. Add VACAY to your HYDRALIFT Moisture Injection Cream or Gel with LSRI0® to self-tan your face. Add to LAVISH Ultra Rich Body Butter to self-tan your body.
